ABOUT BRIDGE2HE

National Contact Point (NCP) systems are support structures that help participants to access opportunities in the Horizon 2020 and Horizon Europe programmes.

Aim of the project „Bridging the gap between Horizons through transnational cooperation of its NCP support structures (Bridge2HE)“ is to act as a supporting scheme to bridge the time between Horizon 2020 NCP network projects close and new Horizon Europe ones open, by facilitating effective integration of NCP systems in Horizon Europe.

Project will enhance performance of NCP systems and provide starting point for sustainable and coherent framework for the future Horizon Europe NCP systems by creating the central NCP portal. Also, proposers in new Horizon Europe calls will be supported by key NCP-led transnational tools & services for participants.

BRIDGE2HE
with NCPs

PROJECT OUTPUTS

- Horizon Europe NCP Portal
- Trainings for Horizon Europe NCPs
- e-learning courses on Horizon Europe basics
- Brokerage events
- Workshops for proposers
- Proposal check events
- Meet & exchange workshops on widening issues
- Twinning and mentoring programmes for NCPs
